

## Changing Work into Passion

**PASSION**  
IS THE DIFFERENCE BETWEEN  
HAVING A JOB OR  
HAVING A CAREER

Do you want to reset your career path? Are you ready to have more than just a job? If you want your work to inspire and satisfy you, then this is the coaching plan for you.

After the initial alignment consultation, there are four 4 more career coaching sections in our practice. Each coaching session covers discussions and works within that stage, builds and progresses from the previous session, goals, and homework for the next meeting.

### **Section 1: Finding a Job You Will Love**

In preparing for this meeting, you will complete three extensive assessments that determine and describe your natural behavior style, your values and motivations, and the balance of tasks in your ideal work environment. Because these assessments are online, your results are immediately

available for review and discussion. This exercise provides an example list of job possibilities tied to you personally. These assessments are designed not just to fit you into a role, but to ensure that the role fits you, fostering a productive and fulfilling career. The assessments are so solid, you can use them throughout your career.

### **Section 2: Creating Your Resume, LinkedIn, and Cover Letter – aka Your “Tool Kit”**

Your resume is your primary marketing piece during your career search. You and your coach will complete a resume that highlights who you are as well as your accomplishments and influence in your job roles. Required now in the job search is an updated and completely set up LinkedIn, and a customized cover letter. We show how you achieved at work, why it is important to the company, and how you used your skills and influence to make that achievement happen.

### **Section 3: Getting to Interview for Your Perfect Job – Influence Networking**

Everyone tells you to use your network to find a job, but no one ever tells you exactly how to do that – **we do**. Through identifying key contacts, prescribed emails, and contact programming, you'll avoid the black hole of the internet and unresponsive HR departments. You'll be closely coached to both rank and contact your Network and create a highly customized process. Finding a job this way will reduce your time to 5-9 weeks, instead of 5-9 months. You'll also have unlimited support from your coach for 60 days as you search.

#### **Deliverables at every stage - when you are finished you will have:**

- A perspective on your personal behavioral style and the styles of people you will likely enjoy working for and with as well as a list of personal jobs you may enjoy and thrive in.
- A working resume, LinkedIn, and cover letter that reflects your talents, history, passions, and values
- A system of contacting people who can advance your new career path with 60 days of support
